Dear Sir:

Prior to examination on the merits, please amend this application as follows.

In the Detailed Description:

On page 9 continuing through page 10, please replace the paragraph beginning with

"Computer 14-1 may be thought of as . . ." with the following:

Computer 14-1 may be thought of as a "client" device. All that means in this context is that computer 14-1 may request and receive services from stream server 12 or slide server 13. Stream server 12 and client computer 14-1 are connected through wide area network 17; thus stream server 12 may be thought of as connected to a first side of wide area network 17 and client computer 14-1 may be thought of as connected to a second side of wide area network 17.
